

# Consulting & Infrastructure Services

*When your strategic IT assets are on the line, trust a partner who's done it before*

Like the vast majority of our customers, IT is probably not your core business. Trying to solve all of your IT challenges internally can become a major distraction, and other aspects of your business can suffer. More often than not these challenges end up costing way in excess of your initial expectations.

If you need help with a special project involving your IT assets and/or consulting, Dataprise is eager to assist you. We have an expert, affordable IT consulting team capable of providing you with high-level advisory and managerial services that will meet any of your short, or long-term IT objectives.

**IT Assessments**

**Network Security Services**

**CTO/CIO Services**

**Program Management**

**IV&V Services**

**Carrier Services**

**Telephony Services**

**Virtualization Services**

**Disaster Recovery Planning**

**Business Continuity Planning**

# Consulting & Infrastructure Services

First-class IT consulting will always be a standard feature of our **Support365™** plans. However, there are times when an even higher level of IT knowledge and experience may be warranted, or you may require services that fall outside of the **Support365™** feature set. Dataprise Consulting & Infrastructure services can help you fulfill many of your other IT projects & requisites — and a whole lot more.

## Outsourced CTO / CIO Services

Whether you need an expert at hand during a business transition, or you require IT leadership on an ongoing basis, our Chief Technology Officer/Chief Information Officer service gives you access to IT professionals who can bring C-level leadership to your team, without the cost and commitment associated with hiring full-time employees.

When you outsource executive-level IT functions to Dataprise, our professionals move quickly and efficiently to analyze your organization's situation; taking control and accountability for driving IT strategy, while recommending specific ways that technology can make your business more competitive in your marketplace.

**Contact us today to find out how we can solve even your most complex IT challenges**
