DATAPRISE DATA SHEET

Azure Optimization

Take control of your cloud environment. Get the most from your investments.

As your Azure environment grows, so can the challenges—from ballooning costs to performance bottlenecks and more. Our Azure Optimization service puts you back in control of your Microsoft cloud journey with a comprehensive dashboard and regular expert consultations.

Your Optimization Toolkit

Comprehensive Dashboard

- ✓ Full analysis of your Azure environment with prioritized recommendations.
- ✓ Actionable insights to optimize costs, security, and performance.

Expert Review

- ✓ Quarterly strategic planning sessions with our certified Azure architects to review your dashboard results, answer questions, and help you develop a roadmap for future optimization.
- ✓ Priority access to technical guidance and validation of recommendations so you can proceed with confidence.

How It Works

INSIGHTS IN MINUTES, NOT MONTHS

Analyzes your environment against **700+ datapoints** to identify and prioritize optimization opportunities based on impact.

COMPLETE VISIBILITY IN ONE DASHBOARD

Integrates **15+ APIs** to pull all critical data and context into a single pane of glass for streamlined review and decision-making.

ENSURE OVERALL ENVIRONMENT HEALTH

Checks for compliance against Microsoft's Well-Architected and Cloud Adoption Frameworks to maintain overall cloud health.

Key Optimization Areas

We assess your infrastructure across the five pillars of Microsoft's Well Architected Framework to drive meaningful improvements while balancing competing priorities.

Optimize Costs

Optimize and reduce your Azure spend. Our customers save an average of 27% per month.

Tighten Security

Detect threats and vulnerabilities that might lead to security breaches.

Increase Reliability

Improve business continuity for business-critical applications.

Reach Operational Excellence

Streamline workflows, improve resource management, and adopt best practices.

Boost Performance

Optimize application speed, scalability, and responsiveness.

Trust Dataprise to Get You There

Dataprise is a Microsoft Cloud Solutions Partner and provides premier Azure services, from strategy and migration to ongoing management and optimization, nationwide. Our team of certified Azure Solutions Architect Experts partners with strategic IT leaders to deliver solutions that drive efficiency, security, and performance.

> ***"In our first session, they helped us bring our monthly spend down by over $10,000.***
