DATAPRISE

Explore Plans: Co-Managed IT Services

Our Co-Managed IT Plans are designed to give your business a single, reliable partner for managing critical IT functions—whether you're looking to simplify your vendor landscape, ensure your IT team meets business demands, strengthen cybersecurity, or improve support experiences.

Every plan includes the people, processes, and technology needed to keep your business running smoothly.

Starting at…
$102 /user
IT Foundation

Your IT fundamentals, expertly and proactively managed by a single partner.

Great Starter!

24x7 End-User Help Desk with industry-leading automation keeps users productive and unburdens your IT team.

Simplify IT Administration with proactive management, monitoring, and support for your infrastructure and network. Plus, get managed data backup.

Build a Security Foundation with Managed Endpoint Protection, a 24x7 Security Operations Center to monitor and respond to threats, security awareness training, and a quarterly vCISO review.

Choose Foundation If…

- ✓ You want a streamlined IT experience with a single, reliable partner.
- ✓ You want to establish a baseline for cybersecurity.

Starting at…
$144 /user
IT Fortify

Reduce risk and strengthen resilience with comprehensive security management.

Includes IT Foundation!

Supercharge Your Help Desk with prioritized resolution for VIPs and US-only resources.

Advanced Security Features reduce your risk:
- ✓ Automated Log Management and Threat Analysis (SIEM)
- ✓ Proactive Threat Hunting
- ✓ External Vulnerability Scans
- ✓ Annual Penetration Testing
- ✓ Monthly vCISO review

Increased Resilience with fully managed Disaster Recovery and Data Protection that includes 24x7x365 emergency coverage.

Choose Fortify If…

- ✓ You have elevated security or infrastructure resilience requirements.
- ✓ You have end users requiring a prioritized support experience.

Starting at…
$167 /user
IT Comply

Expert compliance alignment that avoids audit surprises.

Includes IT Fortify!

Compliance Reporting and Testing to proactively address regulatory requirements:
- ✓ Annual Disaster Recovery Test
- ✓ MFA Dataprise Trusted Access
- ✓ Annual Compliance Gap Assessment with remediation planning (HIPAA, PCI, and more)
- ✓ Monthly Compliance Reporting Review with your vCISO

Choose Comply If…

- ✓ Your organization has a regulatory compliance obligation.
- ✓ You want to offload the stress of staying audit-ready.
