

Turn AI Ambition into disciplined, business-driven execution

The AI Strategy & Governance Advisory provides experienced, executive-level guidance without the cost of hiring a full-time AI leader. Acting as your trusted advisor, we help you define a clear AI vision, establish governance, and build a practical roadmap that aligns with your business goals.

Key Deliverables includes:

- ▶ AI Maturity Assessment & Baseline
- ▶ AI Governance Framework
- ▶ AI Roadmap
- ▶ Executive & Board-Ready Briefings

Executive-level AI leadership delivered as a service

AI Strategic Authority

We serve as your centralized AI advisor, guiding decisions across data, security, and applications. Every initiative is aligned to business outcomes not hype.

Governance Framework

We define how AI decisions are made across your organization establishing roles, responsibilities, and oversight to ensure responsible, compliant adoption.

Roadmap Development

You'll receive a clear, actionable 12–24 month roadmap that prioritizes initiatives based on impact, complexity, and risk.

Executive Alignment

Through structured sessions and board-ready briefings, we ensure leadership stays informed, aligned, and confident in AI decisions.

A structured, two-phase approach designed for clarity and momentum

Phase 1:

Initial Assessment & Strategy (60–90 Days)

Establishing your AI foundation:

- AI maturity assessment and baseline
- Governance framework and AI steering committee setup
- 12–24 month AI roadmap development
- Executive strategy readout and alignment

Phase 2:

Ongoing Advisory & Governance (Recurring)

Keeping your strategy on track:

- Monthly executive advisory sessions
- Participation in your AI steering committee
- Quarterly roadmap and governance reviews
- Continuous guidance on prioritization, risk, and alignment

You'll walk away with tangible, executive-ready outputs:

- AI Maturity Assessment & Baseline
- AI Governance Framework (roles and decision rights)
- AI Roadmap (12–24 Months)
- Executive & Board-Ready Briefings

With AI Strategy & Governance Advisory, you gain:

- Clear AI direction tied to business value
- Reduced risk through structured governance
- Confident, aligned executive decision-making
- A practical roadmap for sustainable AI adoption
