

Veeam Data Cloud for Microsoft Entra ID

Protect Critical Identity Infrastructure

Dataprise, in partnership with Veeam, delivers Veeam Data Cloud for Microsoft Entra ID as a fully managed backup and recovery service that protects your identity infrastructure from accidental deletion, misconfiguration, ransomware, insider threats, and unauthorized changes. The solution safeguards critical identity objects—including users, groups, administrative units, roles, application registrations, service principals, Conditional Access policies, and Microsoft Intune policies—using a zero-trust architecture and the industry-leading 3-2-1-1-0 backup strategy. Dataprise also manages backup policies, monitors backup health, validates recoverability, and helps ensure rapid restoration of identity services when disruption occurs.

What's Included:

- + Comprehensive Microsoft Entra ID Protection
- + Fully Managed Backup Operations
- + Flexible Recovery Capability
- + Immutable, Off-Tenant Backup Storage
- + Continuous Monitoring & Alerting
- + Retention Management
- + Rapid Service Onboarding
- + Built on the 3-2-1-1-0 Backup Strategy

Why Dataprise:

- 30+** Years in business
- 6K+** IT and Security transformations
- 386K** Devices under management
- 2,500** Small and mid-sized clients
- 750+** Technical certifications
- 4B** Cyber events monitored daily

The Value of a Managed Microsoft Entra ID Solution

Protect Critical Identity Infrastructure

Safeguard Microsoft Entra ID objects that are essential for user authentication, access management, and security operations.

Independent, Off-Tenant Protection

Maintain secure backup copies outside of the Microsoft Entra ID tenant to ensure recoverability even in the event of tenant-wide compromise.

Immutable Backup Security

Prevent backup data from being altered or deleted through immutable storage that protects against insider threats and cyberattacks.

Support Compliance Requirements

Meet business, regulatory, cyber insurance, and governance requirements with configurable retention policies and documented recovery procedures.

Rapid Recovery

Restore individual users, groups, applications, or entire Microsoft Entra ID environments quickly to minimize business disruption.

Enterprise-Grade Data Protection

Leverage Veeam's cloud-native backup platform backed by Dataprise's managed services expertise and proactive operational oversight.
