DATAPRISE

M365 Migrations Done Differently.

Delivering Confidence. Driving Results.

More than a migration. A strategic advantage.

RIGHT TOOL. RIGHT JOB.

We don't rely on a single tool. We leverage a **portfolio** of leading migration solutions—selecting the right technology for your source, destination, data, and requirements.

BEYOND THE TOOLS

We know where even the best tools have limitations. Our proprietary processes and additional tooling provide deeper validation, overlap for accuracy, reconciliation, and complete confidence.

SENIOR EXPERTS. ALWAYS.

Every migration is led by Senior Engineers or Architects. No handoffs to junior staff— just experienced experts accountable for your success.

TRAINING THAT DRIVES ADOPTION

Custom, role-based training tailored to your environment helps your team get more from Microsoft 365— maximizing productivity and your investment.

PROVEN EXPERIENCE. PROVEN AT SCALE.

We've migrated more than **1,000,000** mailboxes across hundreds of organizations of all sizes and industries.

PIONEERS IN THE CLOUD

We've been doing M365 migrations since **2010**-when Office 365 was new and licenses were just $1/user. Microsoft Gold Partner. Exchange MVP leadership.

SECOND-DAY SUPPORT THAT MAKES A DIFFERENCE

Dedicated second-day support teams-onsite or remote-provide white-glove assistance while our migration experts stay focused on backend success.

SECURITY & COMPLIANCE BUILT-IN

We embed Microsoft best practices for security, identity, and compliance throughout the migration-protecting your data and your users.

Over a Decade of M365 Migration Leadership

Office 365
2010
$1/User Licensing Era

Microsoft Gold Partner
Early Adopter.
Cloud Pioneer.

Exchange MVP Leadership
Deep technical expertise from day one.

1,000,000+
Mailboxes Migrated
Thousands of successful migrations delivered.

Today & Beyond
Continuing to lead with innovation, experience, and trust.

Certified. Trusted. Partnered.
